MESSAGE

I AM pleased to know that ICAR-Human Resource Management (HRM) Unit is bringing out a booklet of the Annual Training Calendar for the year 2026-27 to address the evolving training needs of all cadre employees of ICAR HQs and 113 Institutes.

ICAR-HRM Unit is the single window in the Indian Council of Agricultural Research (ICAR) to plan, coordinate and monitor the training programmes in ICAR. The unit has been playing a pivotal role in developing the human resource capacities of the staff and professionals of the ICAR & NARES under different categories viz., Scientific, Technical, Administrative and Financial services.

I hope this training calendar will play an important role in enhancing knowledge and competency of individuals and institutional effectiveness, significantly contributing to building a future-ready agricultural workforce, aligned with national priorities and emerging challenges. I wish all the success to the entire HRM team in its future endeavours.

FOREWORD

TRAINING and capacity development plays a pivotal role in fostering innovation, sustainability, and resilience in the agricultural sector. In the dynamically evolving agricultural sector, it is imperative for professionals to stay abreast of the latest advancements, best practices, emerging technologies and matching skills and to deliver their services effectively. The need for a knowledgeable and skilled workforce becomes more pronounced with the current unprecedented global challenges.

ICAR-HRM Unit has been at the forefront in empowering agricultural professionals and stakeholders through addressing their training and human resource development needs.

It gives me immense pleasure to unveil the Annual Training Calendar for the year 2026-27 prepared for all the category employees by Human Resource Management (HRM) Unit needs of Indian Council of Agriculture Research (ICAR). This annual plan offers a blend of training sessions, and interactive learning modules, reflecting our commitment to advancing knowledge and capabilities in alignment with the dynamic challenges facing the agricultural landscape. The annual training calendar of ICAR- HRM Unit also serves as a comprehensive roadmap, outlining a diverse range of programmes designed to cater to a broad spectrum of participants encompassing researchers, extension personnel, policymakers, farmers, agri-business professionals and other stakeholders.

I invite all stakeholders to actively engage with the diverse programmes outlined in this plan and let us strive towards a future where knowledge, innovation, and sustainability converge to create a thriving agricultural ecosystem.

I congratulate the HRM Unit for their efforts in compiling and shaping this Annual Training Calendar for the year 2026-27.

Dated 24th June, 2026

PREFACE

THE Annual Training Calendar 2026–27 of the Indian Council of Agricultural Research (ICAR) has been prepared for capacity building, skill enhancement and professional development of scientists, researchers, technical personnel, administrative staff, extension functionaries and other stakeholders associated with the National Agricultural Research, Education and Extension System (NAREES).

Human Resource Development (HRD) is a critical component of institutional excellence and organizational effectiveness. Recognizing this, ICAR has consistently emphasized on continuous learning, competency enhancement and leadership development to meet the evolving needs of agricultural research, education, and extension. The Human Resource Management (HRM) Unit, ICAR Headquarters plays a pivotal role in coordinating, facilitating and promoting capacity-building initiatives across ICAR institutes and organizations. Through systematic planning and effective coordination, the HRM Unit strives to strengthen the professional competencies of personnel and foster a culture of lifelong learning within the organization.

The training programmes included in this calendar have been designed to address national priorities, emerging challenges and opportunities in agriculture and allied sectors. They cover a broad spectrum of disciplines, including agricultural education, crop sciences, natural resource extension education management, horticulture science, agricultural engineering, animal sciences, fisheries science, biotechnology, information and communication technologies, research management, administration and finance.

The calendar will serve as a valuable reference document for prospective participants, resource persons and training institutions by providing information on training themes, target groups, duration, tentative schedules, and organizing institutes. It is expected to facilitate, wider participation and optimum utilization of training opportunities available throughout the year.

We sincerely thank Secretary, DARE and DG, ICAR for the constant guidance and support in preparation and publication of the Annual Training Calendar of ICAR. We acknowledge the valuable guidance and support of Deputy Director General (Agricultural Education) ICAR in this endeavour.

The HRM Unit gratefully acknowledges the contributions of ICAR HQ Units, all ICAR Institutes, National Research Centres, Directorates, Bureaux, and other collaborating organizations that have provided inputs for the preparation of this calendar.

It is hoped that the Annual Training Calendar 2026–27 will serve as a useful resource for enhancing professional competence, promoting innovation and supporting the overall mission of ICAR in advancing agricultural development and ensuring food and nutritional security for the nation.

About HRM Unit

एच.आर.एम यूनिट के बारे में

The Human Resource Management (HRM) Unit was created at the ICAR Headquarters in September, 2014 for strengthening and facilitating Competency driven training and capacity building of Scientific, Administrative, Technical and Skilled Support Staff working in 114 ICAR-Institutes and ICAR HQs as per National Training Policy-2012 of Government of India. The Unit is effectively involved in developing the Institutionalized System of Training facilitating continuous learning for developing future ready employees in the ICAR.
